

AS-9000 Transcription Kit

Transcription Workflow Solution, Simplified.
The AS-9000 is an industry-leading transcription workflow management solution.

Control transcription software through a configurable and ergonomic USB foot pedal that accommodates varying shoe sizes. Included lightweight headphones deliver clear and concise sound quality.

Product Features

EFFICIENT WORKFLOW MANAGEMENT FOR PRIORITY RECORDINGS

Prioritise settings and notifications for urgent recordings. Search for and filter through dictation files to effectively manage priority recordings and oversee total workflow.

SIMPLE E-MAIL CONFIGURATION AND START-UP WIZARD

The new Start-up Wizard creates a fast and easy process that gets your organisation running quickly. It will guide you to set up your network server, FTP, or e-mail settings to route your dictation files to meet your needs.

SEAMLESS INTERFACE TO SPEECH RECOGNITION

Fully compatible with Nuance Dragon® and other speech recognition software, the AS-9000 seamlessly integrates and allows ease of transcription, further decreasing transcription time.

TRUSTED DATA SECURITY THROUGH OLYMPUS ENCRYPTION

An instant 256-bit file encryption with DSS Pro-Format secures your dictation and ensures only authorised listeners can access it. A customisable backup feature enables secure storage of your files and protection against accidental data loss.

SIMPLE AND INTUITIVE REDESIGNED USER INTERFACE

Navigate the interface with ease thanks to an upgraded design. Boost your productivity and efficiency with easily customisable icons and settings to align with user preferences.

The AS-9000 Transcription Kit is the perfect companion with Olympus DS Series devices, the professional dictation systems that provide a complete, end-to-end business solution.

Featuring a four-button foot control pedal, headset, and next-generation Olympus Dictation Management System (ODMS) Release 7 software, the AS-9000 seamlessly integrates into the workflow of your office environment to significantly streamline data sharing and distribution of dictations between professionals, departments, and multiple office locations. A newly designed user interface provides easy set-up and navigation that creates a customised business solution to meet your needs.

Workflow prioritisation and communication enable effective meeting of office deadlines. Included 256-bit AES encryption with DSS Pro-Format provides trusted security for your most sensitive information. The AS-9000 is able to play back your encrypted files from Olympus Professional Dictation devices, which cannot be done on third party transcription programs.

Specifications

TECHNICAL DATA		
Operating System	Standalone System	Microsoft Windows: 7 (Ultimate / Enterprise / Professional / Home Premium SP1 (x86/x64)) 8.1 (Enterprise / Pro / 8.1 Update (x86/x64)) 10 (Enterprise / Pro / Home (x86/x64))
